KEEP OUT OF REACH OF CHILDREN

CAUTION

Personal Protective Equipment: Wear Long-sleeved shirt and long pants, Socks, Shoes and Gloves.

First Aid: If in Eyes: Flush with water for 15 minutes. Get medical attention if irritation persists. If on Skin: Remove contaminated clothing. Wash with soap and water. If Swallowed: Give 2 glasses of water. DO NOT induce vomiting. Call a physician. If inhaled: Remove to fresh air.

General: AMIGO is specifically formulated to increase the coverage of pesticides on plant surfaces after application. AMIGO is compatible with a wide variety of herbicides, fungicides, insecticides, plant growth regulators and foliar nutrients. For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components in the same ratio as the proposed tank mix.

Directions for Use: AMIGO should be tested for compatibility prior to batch mixing. Some pesticides have stated adjuvant use rates. In all cases the pesticide manufacturer’s label should be consulted regarding specific adjuvant use recommendations and that rate followed. Not for aquatic use in Washington.

Suggested use rates:
Ultra-Low Volume Applications (ULV) — Use 1 quart per acre. No water is necessary.
Low Volume Applications (2 gallons of water or less) — Use 1 quart per acre.
Normal Volume Applications (5 to 20 gallons water per acre) — Use 2 quarts per acre.
Citrus Sprays (100 to 500 gallons per acre) — Use 1% of the total amount of water.
Dormant Orchard Sprays (100 to 500 gallons per acre) — Use 1 to 2% of the total amount of water.

For controlled droplet applications (CDA) where no water is added, the use of 3 to 5 pints per acre AMIGO is recommended.

For CDA with water, use 15% of the total liquid. Do not exceed 2 quarts per acre.

Storage: Store in cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.

Disposal: Do not contaminate water, food or feed by storage or disposal. Wastes may be disposed of on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.
